EXECUTIVE SUMMARY

Results-driven Software Developer with experience in full-stack development, proficiency in JavaScript, React and Node.js. Skilled in building scalable applications, optimizing web performance, and developing REST APIs to enhance user experience. Internship experience at **Bluestock Fintech** and **Qspiders**, working in Agile environments to deliver high-performance solutions. Passionate about innovation, problem-solving, and continuous learning, holding a Meta Certified Front-End Developer credential.

EDUCATION

BRCM College Of Engineering And Technology

Bachelor of Technology in Computer Science, **8.2 GPA**

Bhiwani, India

Aug. 2021 – May 2025

TECHNICAL SKILLS

Languages: C++, JavaScript

Frontend Technologies : ReactJS, HTML, CSS, Tailwind CSS

Backend: Node.js, Express, RESTful APIs

Databases: PostgreSQL, Firebase, Relational Database(mysql)

Developer Tools: Git, ESLint, Postman, VS Code, GitHub

Soft Skills: Communication, Teamwork, Leadership, Analytical and Problem Solving, Drive and Initiative

Relevant Coursework: Data Structures & Algorithms, Object Oriented Programming, Database Management System, Software Engineering.

EXPERIENCE

Software Development Intern

Bluestock Fintech

Aug 2024 - Oct 2024

Pune, Maharashtra

- Collaborated in a 5-person team using Agile methodology to develop a fully responsive IPO website based on Figma designs, leveraging **HTML, CSS, JavaScript**, and **Bootstrap**.
- Boosted user engagement by 15% and web performance by 15% through layout optimization, reducing rendering time and improving design-to-development efficiency by implementing responsive design techniques.
- Engineered and optimized a **REST API** using **Node.js** to serve IPO data and integrated RHP/DRHP PDF downloads, boosting user engagement by 20% and improving data accessibility by 15%.

Summer Intern

Qspiders-Software Testing Training Institute

Jun 2024 - Aug 2024

Noida, India

- Created responsive web applications using **HTML, CSS**, and **JavaScript**, increasing development efficiency by 20% through the implementation of reusable components and mobile-first design principles.
- Ensured cross-browser compatibility through rigorous testing with tools like BrowserStack, debugging with **Chrome DevTools**, and optimized web applications by minimizing CSS and JS payloads and leveraging browser caching to enhance scalability by 10x.
- Reduced page load time by 30% through front-end optimization and code refactoring, improving user experience.

Web Development Intern

OctaNet Software Services

Aug 2023 - Oct 2023

Remote

- Optimized cross-platform user interfaces and client-side applications with **HTML, CSS, JavaScript**, and **React** which increases the user retention by 10%.
- Managed content-rich applications by ensuring efficient coding techniques for optimal performance and scalability to provide 10x better user experience.
- Implemented Git for version control, cutting development time by 20% .

ACADEMIC PROJECTS

PrepAI - AI-powered Mock Interview Platform

- Built an AI-driven interview prep platform with **Next.js** and **TailwindCSS** to generate personalized questions based on role, tech stack, and experience.
- Integrated **Vapi AI** as a voice assistant to simulate mock interviews, enabling real-time QnA, voice recording, transcription, and AI-driven feedback.
- Utilized **Firebase** for authentication and data storage, ensuring a reliable and safe user experience for managing sensitive interview preparation data.
- Technology Used: **Next.js, Tailwind-CSS, TypeScript, Shadcn, Vapi AI, Firebase.**

CareConnect - Patient Management System

- Uses **Appwrite** for user authentication, state management, a real-time database to handle user's query, and **Git** to boost development speed by 5x.
- Developed an admin panel for scheduling or canceling appointments in real time—all supported by SMS notifications using **Twilio**.
- Technology Used: **Next.js, Tailwind-CSS, TypeScript, Shadcn, Appwrite.**

Portfolio

- Updated portfolio using Web3 tech with **Next.js** and **Tailwind CSS**, incorporating **Aceternity UI** to enhance user engagement by 10x.
- Integrated **Sentry** for error tracking and performance monitoring, reducing bug-related issues by 5x.
- Technology Used: **Next.js, Tailwind-CSS, Aceternity UI, Sentry.**

Sumz - An Open-Source Article Summarizer

- Implemented API integration allowing users to input article URLs and receive concise, AI-generated summaries instantly with high accuracy.
- Fabricated a responsive UI for seamless user experience, ensuring easy input and retrieval of summarized content.
- Optimized API calls, reducing response time and improving system efficiency by 3x, enhancing real-time summarization.
- Technology Used: **ReactJs, Tailwind-CSS, JavaScript, OpenAI API.**

StudentWallet - Fee Payment Management System

- Developed a seamless fee payment and financial management system using **JavaScript, HTML, CSS and Bootstrap**.
- Proposed a fee payment feature utilizing the Razorpay API which provides 2x security.
- Uses Firebase as the database for storing, managing and downloading receipts.
- Technology Used: **JavaScript, HTML, CSS, Bootstrap, Firebase, API.**

CERTIFICATIONS

Meta Certified Front-End Developer | Coursera

Jul 2023

The Complete Full-Stack Web Development Bootcamp | Udemy

Jun 2024

ACHIEVEMENTS

- Achieved **4th** position in the **Empower Hackathon** organized by **IDEOS, IIM Ahmedabad**, demonstrating strong problem-solving, teamwork, and technical innovation.
- Dedicatedly completed a 100-day **LeetCode** coding challenge to sharpen problem-solving and algorithmic skills.
- Led a high-performing 5-member team during the **Bluestock Fintech** Internship, effectively managing project workflows and resources to deliver a best-in-class solution that met and exceeded project requirements.
- Achieved the **Meta Certified** Front-End Developer certification, validating industry-recognized proficiency in front-end development principles, technologies, and best practices."
- Served as a member of the **CSE Society**, taking ownership of all technical support for college events.
